<p>The additional 16 houses would cause additional traffic volume up already steep and roads along residential area, and rural school route with no pavement.</p> <p>The fields in which planning has been submitted is one where dears freely roam so it will be damaging natural wildlife conservation areas.</p> <p>I also believe that the homes being built by Orion are not inkeeping in the local area or inkeeping in the houses close by at the foot of the Peak District national park. the drainage and sewerage system in the area are already under pressure and this will cause additional pressure to surrounding areas in particular bank and smithy lane.</p> <p>There are plenty of brown belt sites that should be considered within the area rather than building on green land.</p>
