<p>Plans relating to land adjacent to 31 upper bank end road</p> <p>We have no objections to revised plans that will include rear extension. However we have concerns regarding window in gable end. As there are no measurements on the plan we are unsure as to where , in relation to our bungalow this would be positioned. (Bedroom window facing fence on adjacent driveway) . Also what measurement this window is to be (depth and length)</p> <p>Plans state 'high level ' so would this be higher than the erected privacy fence or behind it. Would it be clear or obscure glass.</p>
