<p>This was rejected earlier this year and there is nothing different about the new notification.</p> <p>It is an eyesore and will look totally out of character at the side of houses and 2 lovely big trees with nesting birds in. There are much more convenient areas for it, such as at the lights near the petrol station and macdonalds. There is already spare land there. And it contravenes still chapters 10 and 12 of kirklees policy LP24. Do not let this go ahead.</p>
