<p>I welcome the development of the building which has fallen into a state of disrepair over recent years. However the flats are very small and family accomodation would be more welcome.</p> <p>The parking shown on the plan is not a true representation in that of the existing spaces 2 are allocated to no. 2 Serpentine road, as such there aren't 6 available for this development as the plan suggests. I think this may contribute to an already over subscribed parking situation in the local area.</p>
