Dear Farzana

EXPRESS HAZARDOUS SUBSTANCE CONSENT TO EXPAND CAPACITY OF PRODUCT ALREADY MANUFACTURED ON SITE IN A CONTROLLED AND REGULATED ENVIRONMENT BY REPURPOSING EXISTING PRODUCTION PLANT; INCREASE THE EXISTING SITE INVENTORY OF FLAMMABLE LIQUID SUBSTANCES CLASSIFIED AS HAZARDOUS TO THE AQUATIC ENVIRONMENT AND POTENTIALLY SELF-REACTIVE SUBSTANCE ALREADY STORED AND HANDLED ON SITE – SYNGENTA LTD, PO BOX A38, LEEDS ROAD, HUDDERSFIELD, HD2 1FF

Thank you for consulting us on this application which we received on 28 April 2023.

We are aware of the proposal to expand capacity of a product already manufactured on site by repurposing an existing production plant and have already issued a substantial variation to Syngenta's Permit (reference EPR/UP3138LT/V018) to allow the production to commence.

The substantial variation application described the process, environmental impact and confirmed the increase in the existing site inventory of flammable liquid substances classified as hazardous to the aquatic environment and potentially self-reactive substance already stored and handled on site. Therefore, we have no comments or objection to the proposed amendment to the Hazardous Substances Consent.

Should you require any further information or clarification, please contact me.

Yours sincerely

Bev Lambert
