

## Appendix A – Climate Change Statement

### Climate Change Statement for Planning Applications

#### Part 1: Applicant details

|                            |                                                    |
|----------------------------|----------------------------------------------------|
| Name of applicant/agent    | J. A. BURTON                                       |
| Site Address               | 10 MEADOW COTTAGE<br>WEST VIEW<br>SCHOLES BD19 6EE |
| Description of Development | 2 STOREY SIDE EXTENSION                            |

#### Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:

Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)

INCREASE EXIST. LOFT INSULATION

Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)

SOURCE MATERIALS LOCALLY

Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

|                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NONE                                                                                                                                                                                                               |
| Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5) |
| NONE                                                                                                                                                                                                               |
| Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)                                                                       |
| <del>NONE</del> POSSIBLE SOAKAWAY                                                                                                                                                                                  |
| Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)                                |
| POSSIBLE USE OF WATER BUTTS                                                                                                                                                                                        |
| Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)                                                                                                                       |
| NONE                                                                                                                                                                                                               |
| Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)                                                                                       |
| POSSIBLE INSTALLATION OF EV CHARGE POINT                                                                                                                                                                           |
