I note from the application that there is a proposed vehicular traffic to and from the site of some 120 movements per day. This equates to some 660 per working week. This represents a significant noise and traffic disturbance on the route from Bromley farm to the factory at Crow Edge. The direct route would follow Carr Hill Lane and cross a dangerous junction across Penistone Road to 5 lanes ends then along Haddingley lane. If permission is granted then there should be a stipulation to use the larger main roads down to New Mill and then on up to Crow Edge .
