Carr hill road is a traffic rat run . Since its improvement more cars use it , as the sovereign cross roads is dangerous . A 30 mph speed limit is never enforced on car hill road . With this being the direct route to crowedge the HGV lorry's will use this route . There is no pavement , there is a 3.5 ton limit coming down, which is constantly violated, if you comment to the offending driver you get verbal abuse. Quite simply letting these lorries use car hill road as a cut through (which they will) is a recipe for disaster some one will get killed or injured. A 3.5 ton limit should be imposed in both directions, which would negate the use of Carr hill road . And it should be vigorously enforced by the police
