My concerns are that it is most likely that the lorry's WILL USE CARR HILL ROAD and not stick to the main roads, this road is not suitable for the lorry's to use also there is supposed to be a weight limit on it (but who is around to Police it) we have no pavement on the road and when I was walking up it I got clipped on the arm and that was a car (not a great big lorry) we have children on this road on the bikes it is not that long ago one child got knocked off his bike and rushed to hospital. I live by a blind corner and it is now harder to get into the road as the cars come bombing round the corner before I have got in to the road what will it be like trying to get into the road when we have all these lorry's comeing round the corner There will be a massive accident on this Road if they are aloud to use it. Also I sit in the front of the house in my garden and with the lorry's comeing up now it makes the house vibrate and I don't want to be breathing in their Diesiel Fumes what we need is a bollard by the Star to stop the lorry's turning left into Carr Hill Road that would stop them comeing up afterv all this is road to peoples house's not a Short cut
