Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
The Transport Statement submitted with the application and the full application itself does not consider the routes of the HGVs to and from the access road, nor the impact of the vehicles on the immediate road network and residential area. The area close to the access off Barnsley Rd, comprises a busy junction with shop, pub and school. The effects of the HGVs on this must be quantified prior to further consideration by the Planning dept. These considerations should include safety environmental pollution, noise, parking on side roads. This is an extremely busy area at rush hour and the HGV increase would make it extremely hazardous. The application fails to address this.
