I wish to object to the application at Bromley Farm Quarry for the following reasons. This type of development in a residential area is beyond comprehension, The increased number of HGV vehicles accessing the proposed site will add considerably to local traffic,creating noise & pollution, not to mention the excssive working hours. The traffic in Upper Cumberworth, especially Carr Hill Road where i live is a nightmare at the best of times with motorists & HGV drivers using it as a rat run to avoid traffic at the co-op crossroads which is an accident blackspot in itself. There is supposed to be a 30mph in place but, nobody takes any notice! I literally risk my life when trying to exit & enter my driveway. There are no pavements up Carr Hill Road, where are local cyclists, Horse riders & dog walkers supposed to get out of the way of these vehicles whilst negotiating parked cars? Local house prices will suffer, I worry for the parents & children that attend Cumberworth First school with all the additional traffic & pollution that comes with it, will only make negotiating there journey even harder. For all of the above reasons i believe the council should refuse this application.
