The increased number of HGV vehicles will add considerably to local traffic, creating noise and pollution associated with heavy goods vehicles. The added congestion at the sovereign crossroads and Carr Hill Road will cause even more problems. The access to and from the Bromley tip is inadequate for HGV vehicles & private cars passing each other as the road s not wide enough. 120 waggons per day who will no doubt use Carr Hill Road as a cut through,are going to be slow moving, and will inevitably cause delays and tailbacks at the junction on the A629. The value of our homes will be affected, who wans to live on a HGV rat run! I strongly oppose this application on the above grounds and i would recommend that Kirklees Council do the same!
