The impact of the development on the transport network in terms of highway safety should be mitigated by traffic regulation to route traffic away from the residential areas of Park Lane, The Croft, Carr Green, Carr Mount, Wells Mount, Carr Cottages and various other small developments which are served by Carr Hill Road which is the estate distributor road for the area of Upper Cumberworth situated to the south side of the A635 Barnsley Road. This could be easily achieved by extending the existing 3.5 ton weight limit already in force on Carr Hill Road between the A629 and A635 roads (down Carr Hill Road) to cover vehicles travelling in the opposite direction from the A635 to the A629 (up Carr Hill Road). If the proposed development is to be permitted, it would be prudent to impose a condition requiring the developer to route HGV's from the site away from unclassified residential estate roads.
