I am 11 years old and I have lived at Hollybank Avenue my entire life . I wish to object to the proposed quarrying activities at Bromley Farm Quarry for the following reasons: The increase in the number of HGV vehicles driving through Upper Cumberworth is a hazardous risk. There will be more than 10 children crossing the main road opposite the Star Pub every morning before school and after school at 4:30.pm,that main road is very busy and even more HGV lorries will make it more dangerous. There is also Cumberworth First School in the area where children go to school at 9:00am every weekday. Some children will have to cross the main road, these children are aged from 4 -10 years old. Again, this will make it more dangerous for them just to get to school. Pollution will also be a big problem as they go outside 3 times a day and will probably go outside once they get home. Some of these children already have health and asthma problems and increased pollution could make these illnesses worse. My house is very near to Bromley Farm Quarry, I am worried that further land excavation could lead to land subsidence and damage to my house. I do not want this application to be approved because for the next 25 years there will be increased hazards, accidents, risks and pollution . I live in a nice quiet area and i want it to stay that way.
