I wish to object to the proposed quarrying. So many wagons in and out of the site will be too much for the village to contend with. The damage it will do to the children at the local school with dust sound and amount of large vehicles moving about does not bare thinking about. Children have to cross that road to get to school. Large vehicles moving from 7am till 6pm five days a week plus Saturday mornings will be too much noise for residents who live locally. There is already a massive amount of vehicles that use the main road. Has much thought been given to the wildlife in the area. How will that be affected with the large amount of wagons moving back and forth. Also what about the landscape this is the countryside after all.
