As a resident of Hollybank Avenue, I am greatly concerned about the impact of the extension on our local village. The increased number of HGV vehicles accessing the proposed mining site will add considerably to local traffic, creating excessive traffic, noise and air pollution. The plans suggest that there would be a HGV entering or leaving the site every six minutes - this will have a huge impact on our semi-rural village. There is also no respite from the noise and traffic fumes included in the application. We have a dog and use the immediate surrounding area including footpaths and Eunice Lane play area on a daily basis. The additional noise and air pollution will have a severe impact on this. The noise assessment is unrepresentative and fails to identify the impact on these areas. Overall, the proposed development brings nothing positive to the local area/community and has the potential to damage the mental and physical health of local residents.
