As a resident of Upper Cumberworth I wish to object to the proposed quarrying activities at Bromley Farm Quarry for the following reasons : The increased number of HGV vehicles passing through already busy roads where children and parents walk to the local school would be potentially dangerous and unsafe not to mention noise and air pollution. Horses and also their riders are also at risk. This type of development in a residential area is unwanted and undesirable for everyone but the developer. Also the detrimental effect on local house prices in the future is also a big concern. For these reasons I believe that the council should refuse this application as there isn't enough benefit to the area for what will be years of noise, dust, pollution and not to mention disruption.
