I strongly object to the planning application. The quarrying will have a detrimental impact on the environment, wildlife, recreational space of the area. Rewilding of the fields has brought in new and varied wildlife to the area which must be encouraged and not destroyed. There will be additional noise and air pollution created by the activities and insurmountable additional heavy traffic to a road which is by no means suitable especially past a primary school creating additional dangers to children. There is no commercial benefit to the community through employment opportunities, but is likely to negatively impact property prices in the area.
