I wish to object to the proposed plan for quarrying operations at Bromley Farm. This proposal will increase diesel fuel usage and emissions which is incompatible with Kirklees Council's target of Net Zero by 2038. The proposal envisages a maximum of 120 heavy goods vehicle movements each day. These will probably go along Carr Hill Road which is ill-suited for heavy goods vehicles. There will be an increased risk to other road users and more noise, dirt and pollution along this quiet residential street. The proposed daily working hours are 0700 to 1800. These seem excessive for noisy quarrying activity.
