I wish to object to this application. A major concern is the high number of HGV's it will generate every day. I assume these HGV's will take the shortest route up Carr Hill Road , cross the busy A629 to Cumberworth Lane and Haddingley Lane to the Victoria cross roads. All of these roads are used by walkers, cyclists and horse riders and are not suitable for these vehicles. Carr Hill Road is a dangerous road at present and the last thing it needs is more HGV's. It was recently resurfaced and this increased traffic will surely cause damage. Does Kirklees think it is fair to inflict the local residents to the noise and air pollution that this application will cause , 11 hours per day for 25 years.
