As a resident of Lower Cumberworth, I am registering my objection for the extension of Bromley Farm. The increased number of HGV vehicles accessing the proposed mining site will add considerably to local traffic, creating excessive traffic, noise and air pollution. The plans suggest that there would be 120 HGV's leaving the site every week, this will have a huge negative impact on our semi-rural village. We have a dog and use the immediate surrounding area including footpaths on a daily basis. These walks will become unpleasant, noisy and potentially dangerous when walking by the roadside. I also worry for the safety of my children using the local roads. I have had several near misses with the current quarry HGVs thundering through our small and unsuitable roads at inappropriate speeds. Overall, the proposed development brings nothing positive to the local area/community and has the potential to damage the mental and physical health of local residents.
