Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	No
I wish to lodge an objection to the planned quarrying activities at Bromley Farm Quarry, for the following reasons: - The increased traffic, particularly of heavy vehicles, will increase an already congested road and intersection on the corner of Carr Hill Road and Barnsley Road, and pose a risk to parents and pupils of Cumberworth First School who cross Barnsley Road to get to the school. HGV's will also have a severe impact on air quality and contribute to noise pollution in a residential area. - The roads are inadequate to accommodate heavy goods vehicles, particularly along Carr Hill Road as they are narrow and people often park in the street. Even if an alternative route was to be used, it would result in greater congestion at the intersection between Barnsley Road and Lane Head Road, which is already a particularly dangerous intersection. - The operation and its associated traffic will have a negative impact on property values in the area; lead to increased dust and gas pollution; have a negative impact of residents health. It is an unwanted and unneeded development that will only benefit the developer at the expense of 100's of residents.
