I object to the proposed quarrying activities at Bromley Farm Quarry for the following reasons: As an elderley cyclist who regularly uses the surrounding roads, the increased HGV traffic will create a direct risk to my safety and to that of other cyclists, walkers and horse riders. The increased HGV traffic will be detrimental to the local community through noise and diesel particulate pollutions. Approval of this application for quarrying activity and associated increase in HGV traffic volumes seems opposed to the Kirklees 'our vision is for net zero' - is it not?
