It will be grossly increase both noise and air pollution in the area which is heavily populated with older people many of whom have health issues. I am concerned that the number of heavy deisel and petrol lorries with impact significantly on the air polution in the area and subsequently her health. I would be interested to know if the council make provision for health issues of this type, exacerbated by policy decision. It is my understanding that there is significant evidence to suggest that air polution does contribute to worsen asthma issues, thus my concern. As old people, we feel that we are entitled to live in reasonable comfort, free from excessive noise.
