The proposed development will have an effect on the environment. Pollution from the number of lorries entering and leaving the site will severely damage wildlife in nearby Dearne woods and surrounding areas. The increase in traffic on an already very busy road is of concern, in particular the use of Carr Hill Road, a quiet residential area, and a potentially dangerous turn on to the Barnsley road. Who is going to benefit from this development other than the owners? Certainly not the environment or nearby residents. Finally why are we allowing mining for coal (I appreciate this is not the only thing they are mining for) when we are supposedly cutting down on our use of fossil fuels?
