To whom it may concern	
I'm a local resident living close to the proposed plans to open a quarry on Barnsley Road. Our property and home will be directly affected by the negative consequences of having a conveyor of HGV traffic driving past our front garden. Not only will the noise, road pollution & dust caused by the extra traffic be detrimental to our home but also to the current flooding problems at our property. This issue is directly caused by the already high volume of HGV and farm traffic. The heavy loads on the road has collapsed a culvert under the highway, and as consequence our home is currently flooding. If Kirklees find it to be acceptable to allow such traffic on the highways, then they should as consequence, also accept responsibility for the maintenance of assets that will be unavoidably effected. The irony surrounding this proposal is laughable, after the years of stress and anguish that has already been caused by Kirklees council.
