

Subject: Re Bromley Farm quarry application

Good morning Farzana

I hope you keep well ? We have a further meeting tonight of local residents . In advance of that meeting I thought I'd share with you two videos of the road between upper Cumberworth and Lower Cumberworth. This road was closed earlier this week without notice causing terrible inconvenience to local people who needed to make a detour .

This complete lack of consideration for local residents by the developer is unacceptable and really confirms the lack of care regarding the impact of quarrying activity on the local community .

I'd ask you to make the planning committee aware of this . I'd also appreciate an update on where the planning process is up to .

Kind regards and many thanks
