Postcode:	S36 4HG

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
You have written to me mentioning that additional or altered information re this application is published on your website. The only such information I can see is a new plan showing the routeing of lorries from the application site to the destination site. Whilst the proposed route on the plan avoids use of Carr Hill Road by outward lorries, which is welcome, the information you have provided does not make clear whether the route shown applies also to lorries travelling in the opposite direction. It is essential that all routeing avoids use of the heavily-residential Carr Hill Road and I await your confirmation that this will be so (please respond to this point). Also, there is no indication in the documents online whether or not the indicated vehicle route is mandatory (could the company decide to vary the indicated route at a later stage and make use of Carr Hill Road?) - please let me know the legal position here (please comment). If the applicant did decide to vary the indicated route, would Kirklees Council be able and willing to prevent this by appropriate legal action (please comment)?
