Subject: Planning Number:- 2023/91280

Hi,

Having looked at the update to the above planning application.

The route of the heavy goods vehicles travelling daily, may be fine to get the application passed, but as soon as the work starts the drivers will use the short cut.

The drivers will obviously drive up Carr hll Road to 5 lane end saving them time.

Carr Hill Road have no pavements and is already plagued with 8 wheel trucks using this road daily often both ways which should be illegal.

Many thanks
