As a resident, can't say I'm in favour of these plans due to the current state of the quarrying in this area! Our house is always filthy from the current works. The drainage is awful (the road outside our house is always blocked) when it rains it over flows and runs down our drives. Our house drainage is blocked due to all the dust. Personally I don't think they take responsibility for cleaning up after the mess they make. Adding more to this already mess is not going to be great. There is also a worry to health from all the dust and pollution from all the vehicles. It's borderline criminal there isn't an independent inspector in place running an ongoing risk assessment to the health of near by residents. Adding more vehicles to an already busy dangerous road is crazy! We have accidents and deaths all the time on these junctions - nothing is ever done about it though so I'm guessing nothing will be done about this. Pointless - but not in favour at all.
