I object to this planning application primarily on the grounds of the impact on highway safety and traffic. I am also concerned about the noise associated with the increased volume of traffic that is specified in the planning application and the impact on levels of pollution. I use the Sovereign crossroads most days and have to queue to use it most days. I regard the crossing as extremely hazardous and in my view the hazard increases in association with the time drivers wait to negotiate the crossing. An additional 120 HGVs using the crossing daily will significantly increase time it will take to negotiate the crossing and render the highway unsafe to use. I use the New Mills crossing regularly but not daily. This is also a dangerous crossing and the proposed increase in HGV use will significantly add to the level of danger.
