| <p>Hi,</p> <p>As I live on Carr Hill Road, doing a lot of walking and cycling, I know about the problems with heavy goods vehicles using this road.</p> <p>I am aware the the planning application says the route will be via The Sovereign junction then New Mill.</p> <p>We already get more then our fair share of 8 wheel tipper trucks using Carr Hill Road and up to 5 lane ends as a short cut. I know once the planning for this is passed, the drivers will not go round the long route but will use the short cut up Carr Hill Road on the outward journey as it is supposed to be restricted to 3 tons on the return, but that is only accepted by some drivers when they fell like it.</p> <p>The only solution to the problem would be to restrict all heavy goods using this route, and make part of the planning consent to improve The Sovereign junction</p> <p>Many thanks</p> |     |
