<p>We object due to the mess & noise that will come around our neighbourhood. When we first bought this house, it was to facilitate _____ as she likes the street as it is peaceful and away from the chaos of high traffic and footfall. Currently we struggle with the weekend football & the annual galas as it is disturbing for _____ (We currently take _____ out and away from the chaos when this happens nearly every weekend). Also note, we have ongoing issues with people going up and down especially at high speeds. Furthermore, allowing this to go ahead will only increase the footfall on our street and around the area as there is access to the back field, which means more footfall, more high speeding traffic, more chaos! We also have thieves who come from the back field and snoop in our gardens. By doing this, you will only increase the theft rate in our street. Please do not make it harder than it already is.</p>
