Myself and my wife live at Merlin, Underbank Old Road, HD9 1AS. Our property is a semi bungalow which is adjacent and below the proposed development. We do not object to the proposal but do have concerns regarding the access to the development. It is presently quite narrow and the retaining wall between the applicant's property and our land does not appear strong enough to support heavy vehicles during the building process.

Our neighbour has similar concerns and will be contacting you independently.

Yours Sincerely
