<b>Prior notification for 15m 5G telecoms installation: H3G street pole and additional equipment cabinets</b>
<b>Date Responded: 01/06/2023. Responding Officer: D. Stainsby Responding Ref: K12-14/19</b>

This application is for a proposed 5G telecoms installation: H3G 15m street pole and additional equipment cabinets.

#### RECOMMENDATION

No objection subject to a construction management plan and maintenance plan being agreed.

The site is located on a wide verge at the back of the footway and is set back far enough so as not to impact visibility splays at the junction of Grosvenor Road and Kingston Avenue and does not obstruct the footway.

As a result, the site is acceptable on Highway Safety grounds and Highways DM would not object to the proposals.

However, a condition requesting a construction management plan for the installation of the equipment and a maintenance plan for the ongoing maintenance of the equipment will be required.

The siting of a crane within the highway adjacent to this junction will cause an obstruction and require traffic management.
