

**Consultation Response from KC,
Ecology Unit**

2023/91441 31, Chapel Hill, Linthwaite, Huddersfield, HD7 5NJ

**Change of use and alterations to former church (B8-storage) to 9 residential units (C3) and
formation of car park (Listed Building within a Conservation Area)**

Date Responded: 16/06/2023

Responding Officer: Gareth Hey

Responding Ref:

A bat survey report has been submitted with the application, which is welcomed. The survey concluded that the buildings offer low roost potential, and it is unlikely that bats have used this building. However, due to the restrictions in a detailed scoping survey being undertaken due to the height of the building, a summer activity survey will be carried out to determine if the building is being used by bats.

Prior to determination, the recommended survey work should be undertaken. Once the appropriate survey has taken place and the necessary assessments submitted, KC Ecology should once again be consulted.

Suggested Actions:

- **Undertake required survey work, in line with best practice guidelines.**
