cabinets with 2 upgraded equipment cabinets and ancillary development including installation
of GPS node**

Date Responded: 01/06/2023.

Responding Officer: D. Stainsby

Responding Ref: K4-3SE/14

This application is for the removal and replacement of existing 12.5-metre high monopole, supporting 3 antennas within a shroud, floodlights and security camera, with an upgraded 20 metre high monopole supporting 6 antennas, removal and replacement of 3 existing equipment cabinets with 2 upgraded equipment cabinets and ancillary development including installation of GPS node.

RECOMMENDATION

No objection subject to a construction management plan being agreed.

The site is located within private Land at Cowcliffe and Netheroyd Hill Liberal Club and does not impact on the highway.

As a result, the site is acceptable on Highway Safety grounds and Highways DM would not object to the proposals.

I would expect that the siting of a crane or any construction vehicles to carry out the proposed works would use the adjacent car park of the Cowcliffe and Netheroyd Hill Liberal Club.

However, should the crane or construction vehicles need to be sited on Netheroyd Hill Road then a condition requesting a construction management plan for the installation of the equipment will be required.
