**Subject:** Prickleden Mills

Greetings Mathias Franklin,

I'm writing once again  
to convey that I'm against the Prickleden Mills project going ahead.  
I'm totally against  
any work taking place to destroy the trees and natural habitat of the local wildlife around the pond  
and river, that have made their homes there for over fifty or more years.

Why do you have to  
break new ground to build your hideous buildings, when you can rebuild the buildings you  
removed? You've a responsibility to the area and the local wildlife.

With kind Regards
