Personally, as a school pupil of Holmfirth High School and someone who lives very near the construction site. Not only will such a construction interfere with my view of such lush wildlife but also cause discourse with my daily routine as construction will bring vehicles and block Hollowgate - due to this my school run could be grossly disrupted. However, what I find far more crucial is how this will affect neighbouring animals and animals who live in the place where the buildings are expected. In conclusion, the construction of the flats does not abide with my ideal view of the area since it does not coincide with the nature or the local architecture. Thank you.
