<p>Previous proposals for the development of this site included pedestrian provision to access the riverside footpaths and also an access onto woodhead road near to the junction with Modd lane. This would have afforded a pedestrian through route to/from holmfirth centre without passing and crossing the busy woodhead/greenfield road. This is a route used by school children and parents with prams and as such I was pleased to see this addition as it would be a much safer pedestrian route. The new plans appear to me (difficult to decipher) to have removed this through route and replaced with a woodhead road access much further towards holmfirth so pedestrians will have to double back. This appears to be aimed at dissuadinb none resident pedestrians from walking through.</p> <p>I would like to see this being amended.</p>
