<p>Re: planning application:2023/91491, Prickleden mills, Woodhead Rd, 61, age-restricted apartments.</p> <p>My main concerns about the work to be carried out on the construction of 61 age restriction apartments, is one of safety, the track at the back of the properties , 15,17,19 and 21 Woodhead Rd has never been designed for such heavy vehicles and machinery needed to build these apartments, there no choice but to use the ' track ' to gain access to the site, the back door of my house</p> <p>Which is in regular use , there is no boundary between the back door and the track, my door opens pretty much straight on to the track! with constant heavy construction vehicles rolling past this puts me, and my neighbour's at risk, there are also children and pets that often use the track and I would fear for there safety .</p> <p>On busy traffic days the cars will often mount the pavement out side the front door, with large vehicles using the back track and cars mounted the pavement at the front, there will be times when I could effectively be trapped in my own house! Another concern is the vibrations from heavy vehicles causing damage to structure of the property, the track goes straight past my lower ground floor , it is an old house and was never built to withstand the constant movement of heavy vehicles,</p> <p>There has already occurred damage to the ceiling of the lower ground floor due to traffic on the Woodhead Rd side, and I fear the situation could be made worse by heavy traffic using the track side also.</p> <p>Many thanks,</p> <p>I do not wish my address to be published. Thanks.</p>
