5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☒ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area? ☐ Yes ☒ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

HO1/71/a2

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

An Acer Pseudoplatanus (Sycamore), 22m (S5), was inspected by Kirklees Council Forestry Department on 11/05/23 and findings recorded in the Ezytreev database, tree code 582028 site tree number 69.

This tree was displaying signs of decline at the last inspection in July 2022 with bark loss and evidence of fruiting bodies around the roots. Further deterioration has occurred in the last 10 months with bark loss now extensive and bootlaces extending up the stem making it unsafe to retain given it's location by a busy footpath within a heavily used public open space. It is proposed to fell to ground level to ensure public safety. No replant is proposed in order to allow space in the canopy for the Ulmus Glabra (Wych Elm) already in place to develop to maturity.

7. Identification Of Tree(s) And Description Of Works continued ...

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.
