Postcode:	HD8 9AS

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>I strongly object to this proposal and fully support all similar objections from my neighbours in respect of concern for the habitat for bats, owls, shrews and lizards that will be destroyed; and particularly in respect of the impact on drainage on the road and premises lower down Wood Street.</p> <p>The Consultation Response from KC Trees confirms and justifies many of the concerns of our neighbourhood, not least of which is the most fundamental of questions: why is such an enormous and destructive proposal being made? why are other alternative methods of making the wall safer not being considered? and why are relevant impact assessments absent from the application?</p> <p>In addition, the Response points out that the proposal conflicts with Kirklees Local Plan Strategy and Policies Policy.</p> <p>I respectfully suggest the proposal simply does not pass muster and approval cannot be given, even in the absence of an appropriate impact assessment in respect of drainage.</p>
