<p>Whilst we appreciate some repair work is necessary the wall does not need a total rebuild. A rebuild will mean road closure which will in turn cause disruption to residents on Wood Street, i.e bins not being emptied. Also removing and rebuilding the wall will greatly affect the wildlife which currently use it as home. The ancient trees are also home to many different types of wildlife, squirrels, owls, bats, birds etc and we believe this is a way to get round "accidentally" removing some if not all the trees. There are enough new builds in Skelmanthorpe and we have already lost many trees unnecessarily, the wall has been successfully repaired by the council in the past, why cant this be done again!!</p>
