<p>We strongly object to this application as we feel the loss of the trees would completely alter the appearance of Wood street. Although only 2 trees are shown on the plans there are at least 5 mature trees which would be affected and most, if not all, of these are subject to a TPO. In the fight to combat climate change, they are an asset to the environment and wildlife and it seems likely all will be affected by the plans.</p> <p>We would also question whether the wall is part of the applicant's property. Both it and the road have been maintained by Kirklees (and its predecessors) for far longer than the property at no. 11 has existed. One would suppose, therefore that it has been adopted by the local authority and that the applicant's property extends to but does not include the wall.</p>
