<p>I very strongly object to these proposals on the grounds they will destroy beautiful, protected trees which lend great character and amenity value to the area. Their removal will have a huge negative impact on the area. They also provide nesting and habitat for birds and squirrels. This is not consistent with Kirklees policies on the protection of the natural environment and 'net zero' policies.</p> <p>We note that this boundary wall has in the past been successfully repaired by the Council without the destruction of trees and I would respectfully suggest that other methods are considered.</p> <p>As it stands, this proposal is totally unacceptable.</p>
