<p>We refer to the supporting document, the structural report. Paragraph 4.7 refers to the requirement to remove trees and vegetation behind the wall. We understand that those trees are covered by a TPO. This does not appear to be mentioned in the planning application, only in the structural report. We would therefore ask that this application is referred to the tree preservation section of the Council. We consider that the occasional rebuilding of this dry stone wall is a price worth paying to retain its amenity. The ancient trees in Wood Street are attractive and as others have pointed out provide a habitat for many living creatures which should not be destroyed.</p>
