<p>The wall doesn't appear to be in such a state of disrepair that it warrants a total rebuild (and you have to wonder why they want to go to the expense of a full wall rebuild). There are Newts and Shrews living in the walls surrounding 11 Wood Street which we believe are protected.</p> <p>If the protected trees (and other trees) were "accidentally" damaged while rebuilding the wall and had to be removed this would have a major impact on the diverse wildlife living in and amongst them including owls which are heard every night and bats.</p> <p>The trees will also consume a significant amount of water and if they were to disappear could have a catastrophic effect on flooding Holly Tree Grange gardens and houses.</p>
