

Traffic is bad. Zebras always blocked. Local Shop is constantly blocked by people going to the mosque. And all this at a single floor mosque.

No mosque Marshall's anywhere. 1 low road is constantly blocking yellow lines so are the mosque attendees. They refuse to move their cars for anyone to access the shop.

We've had numerous car collisions and accidents to pedestrians. We need barriers and traffic lights and parking officials on Ravenshouse Road urgently.

The mosque trustees are aware of all these problems, I myself have had a meeting with them, their response is that the road belongs to the council it's their job not the mosques.

I ask Kirklees council, With that being the mindset of the mosque trustees how do we get the problems sorted?

Will it take a death of a child or a community member for this to get resolved? Is Kirklees council seriously not concerned about our safety or our children's?

The mosque clearly are not!

In this time where we have entered a recession we need our local shop more than anything. We are Kirklees council's responsibility as their residents and we need Kirklees council to help support our local shop and stop this illegal activity caused by the mosque. To stop both the illegal zebra crossing and yellow line violations altogether.

Life is hard enough not being able to live during this crisis and our local shop Quality food store has supported us all throughout. We have not got time to go anywhere else and do not choose too as this is our local shop and the problems caused by the mosque are so severe that it has affected not only the shop but is as a community.

There is absolutely no safety for anyone, no authority, no end to this madness.

Can the planning officer and committee finally do something about it and put a stop to this by refusing this application and having strict procedures implemented asap to control this. It is not the Wild West where anyone can do what they want. There are laws that need to be abided by even if your a mosque or charity.

No one is above the law and no one should live like we are living here in constant fear of having the police knocking on our door to say there's been a death due to negligent drivers going to the mosque and knocking down our children or community members.
