1. INTRODUCTION

1.1 TPS Transport Consultants Ltd has been appointed by Mohaddis E Azam Education Centre & Masjid E Madani to provide a Highways Technical Note in support of an application for *Demolition of existing mosque and erection of a mosque and education centre at Ravenshouse Road, Dewsbury (Ref: 2023/31715)*.

1.2 TPS previously prepared a Transport Statement and Construction Traffic Management Plan (CTMP) to support the planning application. Further correspondence with highways officers at Kirklees Council has confirmed that *“a survey should be undertaken to establish the available parking on the surrounding highway network by carrying out a parking survey on an average weekday; this should show the available spaces on the network out of mosque operation times and how many of these are taken up during the operation of the mosque”*.

1.3 The mosque is typically operational at the following times:

Daily prayers:

- Fajr prayers – 05:30
- Zohr prayers – 13:30
- Asr prayers – 19:00
- Maghrib prayers – 20:15
- Isha prayers – 21:45

Friday prayers – 13:30 (this is typically the time of peak use of the site).

1.4 Further to the above correspondence, TPS provided Kirklees Highways Development Control with the drawing attached at **Appendix A**, which demonstrates the scope of the survey to be undertaken. This survey was due to be undertaken 05:30-22:00 to cover the operational times of the mosque and would include a parking beat survey of the area shown, in 30 minute intervals. In response, Kirklees Council confirmed the following:

“The area of the survey is acceptable but the times can be reduced to 7am to 7pm on the Thursday. We would also need to have a record made of the number of parking spaces on each street so that we can identify spaces that may be available for users of the education centre/mosque on the surrounding streets. The purpose of the survey is to identify where spaces may occur and how many of these are filled during times of use of the centre.”

1.5 The results of the survey undertaken are summarised in **Section 2**.

2. PARKING SURVEY

2.1 As requested, a parking beat survey of the roads surrounding the site was undertaken by an independent survey company, to cover a neutral weekday and a Friday. The survey was undertaken on Wednesday 4th September covering the period 07:00-19:00 and Friday 6th September 2024, covering the period 07:00-22:00. The survey covered the area shown at **Appendix A**. The full survey results are attached at **Appendix B**, which includes the results for the Wednesday and Friday, respectively.

2.2 Some anecdotal information has been provided by the survey company, in addition to the results of the survey which is summarised as follows:

Wednesday 4th September

- *The weather was fine and cloudy;*
- *There were road works on Ravenshouse Road at the northern end adjacent to Beckett Lane - they were fixing a drain. The sign said the road works would be for the Monday and Tuesday, but overlapped until Wednesday. They were removed at 14:10. During the survey, there was not much parking at that end, so we do not think it would have affected the survey;*
- *On Ravenshouse Road West Side, between Back of Ravenshouse Road North and Pilgrim Avenue, the data in bold is when an OGV1 or 2 was parked outside the White Rose Company and included as either 2 or 3 vehicles; and*
- *On Pilgrim Avenue on the north section (Pilgrim Crescent to the End of Zone number 12) there was only room for parking on one side, due to the width. This was largely on the north side, however when there were no vehicles parked on the north side at 17:00 two vehicles parked on the south side. We included these on the north side so the capacity was correct.*

Friday 6th September

- *The weather was fine and dull to approximately 11:00, then it was fine and sunny for the rest of the day.*

2.3 The survey included an approximation of the parking capacity in the study area, which was established as 140 spaces, which included the car park adjacent to the site, which is for use by persons attending the site. This car park can accommodate up to 24 vehicles.

Table 1 – Car parking accumulation survey results – Total capacity = 140 spaces

Time	Weds Vehicles	% Capacity	Friday Vehicles	% Capacity
05:30			55	39
06:00			55	39
06:30			53	38
07:00	48	34	52	37
07:30	50	36	51	36
08:00	49	35	48	34
08:30	39	28	44	31
09:00	40	29	45	32
09:30	40	29	47	34
10:00	42	30	46	33
10:30	44	31	46	33
11:00	42	30	44	31
11:30	43	31	45	32
12:00	44	31	43	31
12:30	38	27	44	31
13:00	39	28	48	34
13:30	42	30	84	60
14:00	39	28	47	34
14:30	39	28	44	31
15:00	31	22	38	27
15:30	37	26	44	31
16:00	43	31	50	36
16:30	52	37	56	40
17:00	47	34	57	41
17:30	49	35	51	36
18:00	58	41	66	47
18:30	51	36	55	39
19:00			54	39
19:30			61	44
20:00			42	30
20:30			41	29
21:00			46	33
21:30			45	32
Max Accum	58	41%	84	60%

- 2.4 As can be seen in **Table 1**, during the Wednesday survey, the maximum car parking accumulation recorded was 58 vehicles, which occurred between 18:00-18:30. On the Friday, the maximum car parking accumulation occurred between 13:30-14:00, whilst Friday prayer was taking place and resulted in a maximum car parking accumulation of 84 vehicles, which equates to 60% of the overall capacity.
- 2.5 Given the above, it can be seen that there is significant residual parking capacity on the local highway network when the mosque is in operation, either at Friday prayer times or at other prayers times.

3. SUMMARY AND CONCLUSIONS

- 3.1 At the request of the Local Highway Authority, Kirklees Council, a parking survey has been undertaken by a third party survey company of the area surrounding the site of a proposed new mosque and education centre.
- 3.2 The results of the survey demonstrate that there is significant residual capacity on the surrounding highway network when the mosque is operating at its peak operation, around the time of Friday prayer.
- 3.3 Given this, and in the context that the site is already operational, the development is only seeking to provide new facilities to replace the existing (which are not deemed fit for purpose), rather than to accommodate additional demand for prayer or education purposes.
